

TERRACOTTA ARMY OF EMPEROR QIN SHIHUANG FROM CHINA

Ye Ye

INTRODUCTION

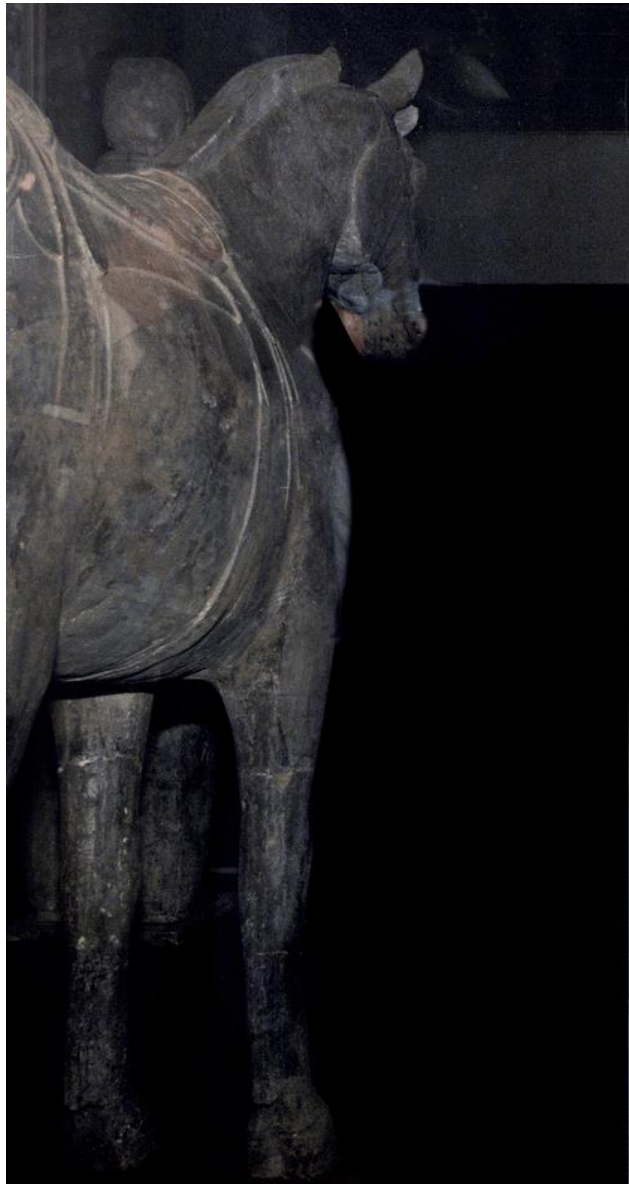

- ◉ The Emperor Qin Shi Huang's Mausoleum Site Museum is the upgrade of the Museum of the Terracotta Army on site of the first Qin Emperor's mausoleum complex.
- ◉ It is a multi-functional public cultural space offering education, research, sightseeing, and entertainment in the mausoleum complex and surrounding space.

INTRODUCTION

- ◉ The mausoleum of the first Qin Emperor has great historical, scientific, and artistic significance. To date, over 900 ancillary pits and tombs have been discovered within the mausoleum complex.
- ◉ In particular, the pits of the terracotta warriors found in 1974 became a well-known eighth wonder of the world, and one of the greatest archaeological discoveries in the 20th century.

INTRODUCTION

- ◉ In 1987, the mausoleum and the Terracotta Army was inscribed into the world heritage list by UNESCO.
- ◉ Since the Museum of the Terracotta Army established in 1979, the first Qin Emperor's mausoleum complex as a site park was opened to the public in 2010.
- ◉ To date, over 100 million people have visited the site from all over the world.

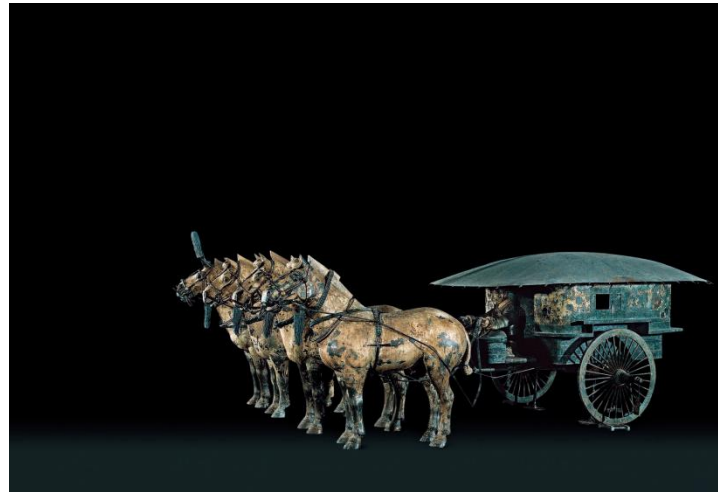

UNDERGROUND KINGDOM

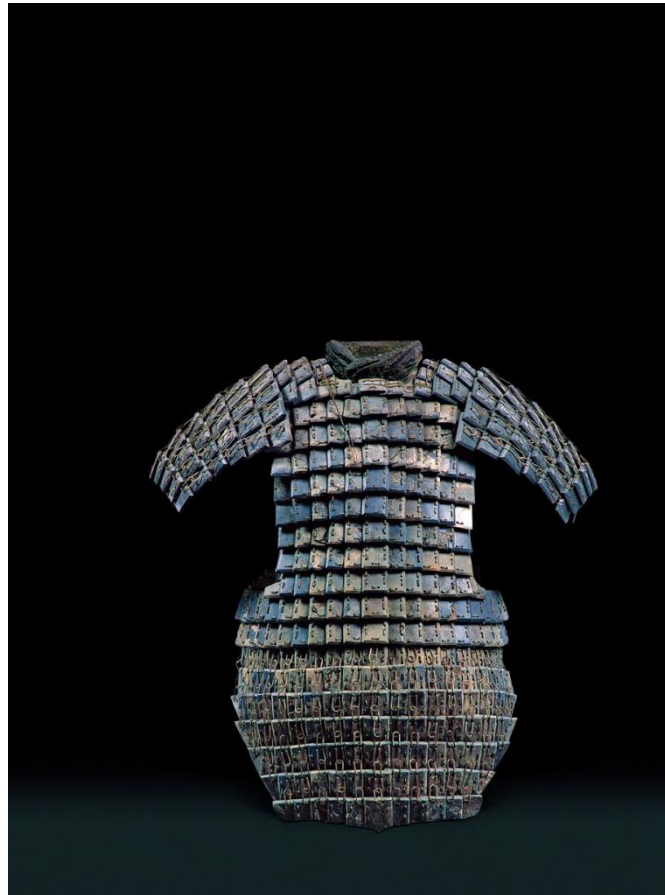

THE EMPEROR QIN SHI HUANG'S MAUSOLEUM

- ◉ Qin Cemetery: has an area of 2.13 square kilometers.
- ◉ Nearly 400 burial pits discovered, uncovering over 50,000 cultural relics.
- ◉ We call the cemetery the Emperor's "underground kingdom."
- ◉ The cemetery's layout and ritual facilities have had a profound influence on imperial tomb construction in later generations.

MYSTERIOUS LEGION

TERRACOTTA WARRIORS AND HORSES

- ◉ In 1974, villagers accidentally discovered the terracotta warriors and horses.
- ◉ There are 3 pits of Terracotta Warriors, located 1.5 kilometres east from the Qin Shi Huang Mausoleum.
- ◉ Constitute the form like Chinese character 品 (*pin*), covering an area of more than 20,000 square meters,
- ◉ Experts speculated that there are about 8,000 terracotta warriors.
- ◉ These images of realistic pottery figures and horses, composed the magnificent military array, as well as the production of sophisticated chariots and weapons, reflecting the high historical, scientific and artistic value.
